Gary;

No, TCEQ has not given them verbal approval that I'm aware of. I just received TRC's response to our previous comments Friday and am routing a copy to the wastewater permits section for their review. If they have spoken to the wastewater permits personnel, I'm not aware. If they have, and discussed discharge limits, they may have discussed the materials needed to be submitted.

The IOM they will send to me will have the discharge approval w/effluent limits etc. I'll send that via letter to TRC/NORCO.

The completion date projected may be difficult to meet, but agree to the push to attempt to meet it.

Phil:

NORCO has indicated that TCEQ has given them verbal approval for the land application of the treated water pending the receipt of the additional information requested. I wanted to make sure this was an accurate statement. Have you guys given them any discharge limitations that they must meet prior to batch discharge of the water?

Attached, you will find their weekly report. I have asked them to better define the completion dates for the activities to be completed. The completion date is listed as December 31, 2011 but I have a feeling that they may not completely meet this date but I want to keep the pressure on them to do so. If you have any questions or you have any more details about the discharge permit, please email me.

Thanks
